

- Russian Federation's Joint Coordination Headquarters for Humanitarian Response, in cooperation with the authorised federal executive authorities, continues to record numerous facts of criminal actions by Kiev regime against civilians, as well as the use of medical facilities for military purposes by Ukrainian armed formations:
- in Druzhkovka, Donetsk People's Republic, AFU soldiers have equipped firing positions and sniper points in the building of Polyclinic No. 1 (Kotlyarevskogo Street), personnel and patients are forcibly held in the basement as a "human shield" and the approaches to the institution are mined, but the local population is deliberately not informed about this;
 - in Ugledar, Donetsk People's Republic, nationalist fighters have equipped barracks, firing positions and ammunition storage sites in a polyclinic (Molodezhnaya Street); heavy equipment and artillery, mortar positions and MANPADs on the roof of the building have been placed in the immediate vicinity and in the adjoining territory;
 - in Bilozerkoye, Donetsk People's Republic, neo-Nazis have equipped a stronghold and ammunition and arms depots in the city hospital (Festivalnaya Street) without evacuating nearby residents;
 - in Dobroslav and Krasnoselka, Liman District, Odessa Region, militants of Ukrainian armed

formations are using hospital buildings and ambulance stations as command posts and barracks, while all patients, regardless of their state of health, as well as patients in maternity wards with newborn babies were cynically kicked out of medical facilities, and medical personnel who tried to prevent the inhuman actions of neo-Nazis were physically abused.

Once again, we call on all international organisations, especially the World Health Organisation, to influence official Kiev and take effective measures to prevent the use of medical infrastructure for military purposes.

Moreover, according to reliable information, health officials in Kharkov, with the full support of the city administration, are stealing medicines and medical supplies provided by Western countries as humanitarian aid, which are then sold at inflated prices in local pharmacies, and psychotropic substances are openly sold over the Internet.

Such actions by criminal Ukrainian authorities demonstrate complete indifference to the fate of their own citizens and absolute disregard for all norms of morality and the principles of international humanitarian law.

Despite all the difficulties and obstacles imposed by the Ukrainian side, over the past day, without the participation of Kiev, 32,361 people were evacuated from dangerous areas, 5,463 of them

children, and in total, since the beginning of the special military operation, 2,529,793 people have already been evacuated, of which 398,353 are children.

The state border of the Russian Federation was crossed by 402,114 personal vehicles including 6,293 per day.

More than 9,500 temporary accommodation centres continue to operate in the regions of the Russian Federation. The refugees are dealt with on an individual basis and are promptly assisted with various pressing issues relating to onward accommodation, employment assistance, places for children in kindergartens and educational institutions, and the provision of entitlements to social benefits.

Over the past 24 hours, the hotline of the Interdepartmental Coordination Headquarters of the Russian Federation for Humanitarian Response, federal executive authorities, constituent entities of the Russian Federation and various NGOs received 23 requests from foreign and Ukrainian citizens to evacuate to Russia, the Donetsk and Lugansk people's republics, as well as to the Russian Armed Forces-controlled areas of Zaporozhye, Nikolaev, Kharkov and Kherson regions. In total there are 2,759,242 such appeals from 2,139 locations in Ukraine in the database.

In addition, 70 foreign vessels from 16 countries remain blocked in 6 Ukrainian ports (Kherson, Nikolaev, Chernomorsk, Ochakov, Odessa and Yuzhniy). The threat of shelling and high mine danger posed by official Kiev prevents vessels from entering the high seas unhindered.

As a result of the measures taken by the Russian Navy, the mine threat in the waters of the port of Mariupol has been eliminated and measures are being taken to restore the port infrastructure.

The Russian Armed Forces have created conditions for the operation of two maritime humanitarian corridors, which are safe lanes for ships:

in the Black Sea - to leave Kherson, Nikolaev, Chernomorsk, Ochakov, Odessa and Yuzhnyi ports in a south-westerly direction from Ukraine's territorial sea, 139 miles long and 3 miles wide;

in the Sea of Azov, to leave Mariupol port 115 miles long and 2 miles wide towards the Black Sea.

Detailed information in English and Russian on the modus operandi of the maritime humanitarian corridor is broadcast daily every 15 minutes on VHF radio on 14 and 16 international channels in English and Russian.

At the same time, the Kiev authorities continue to avoid engaging with representatives of states and ship-owning companies to resolve the issue

of ensuring the safe passage of foreign vessels to the assembly area.

The danger to navigation from Ukrainian mines drifting off their anchors along the coasts of Black Sea states remains.

The Russian Federation is taking a full range of comprehensive measures to ensure the safety of civilian navigation in the waters of the Black Sea and the Sea of Azov.

Demining detachments of the Russian Armed Forces and the EMERCOM of Russia are carrying out land and facility clearance tasks in the territory of the Donetsk and Lugansk people's republics.

A total of 3,896.87 hectares were checked (including 20.02 hectares during the day), 35 buildings (including 13 socially important facilities), 1 bridge and 9.64 km of roads. 57,087 explosives were detected and defused, 1,278 of them during the day.

Federal executive authorities, together with the subjects of the Russian Federation, various public organizations, patriotic movements, continue to accumulate humanitarian aid. The greatest contributors to the relief effort were:

Ministry of the Russian Federation for Civil Defence, Emergencies and Elimination of Consequences of Natural Disasters, Ministry of Industry and Trade of the Russian Federation,

Ministry of Transport of the Russian Federation, Ministry of Economic Development of the Russian Federation, Ministry of Digital Development, Communications and Mass Media of the Russian Federation, Federal Agency for Maritime and River Transport, Federal Bailiff Service, Federal Service for State Registration, Cadastre and Cartography, Federal Agency of Nationalities;

republics of Bashkortostan, Dagestan, Crimea, Sakha (Yakutia), Tatarstan, as well as Kabardino-Balkarian and Chechen Republics, Krasnodar, Primorsky and Khabarovsk regions, Arkhangelsk, Belgorod, Bryansk, Voronezh regions, Kaluga, Leningrad, Moscow, Novosibirsk, Rostov, Samara, Saratov, Sverdlovsk, Tula and Yaroslavl regions, Khanty-Mansi Autonomous Area, as well as Moscow, Saint Petersburg and Sevastopol;

among political parties and non-profit organisations: United Russia, the All-Russian Public Movement "People's Front", the All-Russian Public Organisation of Veterans "Battle Brotherhood", the autonomous non-profit organisation to support humanitarian programmes "Russian Humanitarian Mission", the Open Joint Stock Company "Russian Railways", the State Corporation for Space Activities "Roscosmos" and the All-Russian Public and Public Organisation "Russian Union of Women".

More than 45,800 tons of basic necessities, food and medicines have been prepared at the collection points. Since March 2, 2022, 43,200.5 tons of humanitarian cargo have already been delivered to Ukraine, 1,302 humanitarian actions have been carried out, including 5 actions in Kharkov and Zaporozhye regions, as well as in Donetsk and Lugansk people's republic, during which 477.6 tons of basic necessities, medicines and food were transferred to the civilian population of the liberated areas.

On July 13, 2022, 4 humanitarian actions have been planned and are currently being carried out in Kharkov and Zaporozhye regions, in Lugansk People's Republic, during which 314.5 tons of basic necessities, medicine and food will be distributed.
